

The eclipse Mission

The eclipse Group is continually striving to be a leading regional multi-disciplined provider of high quality cutting-edge event technology to a broad spectrum of clients and markets.

We aim to build strong partnerships with our customers, delivering the highest level of service and support to exceed expectations.

We ask a fair and competitive price that allows us to continually re-invest in our staff, operations, and equipment.

Our people are key to our success; we are committed to their safety, security, welfare and personal development.

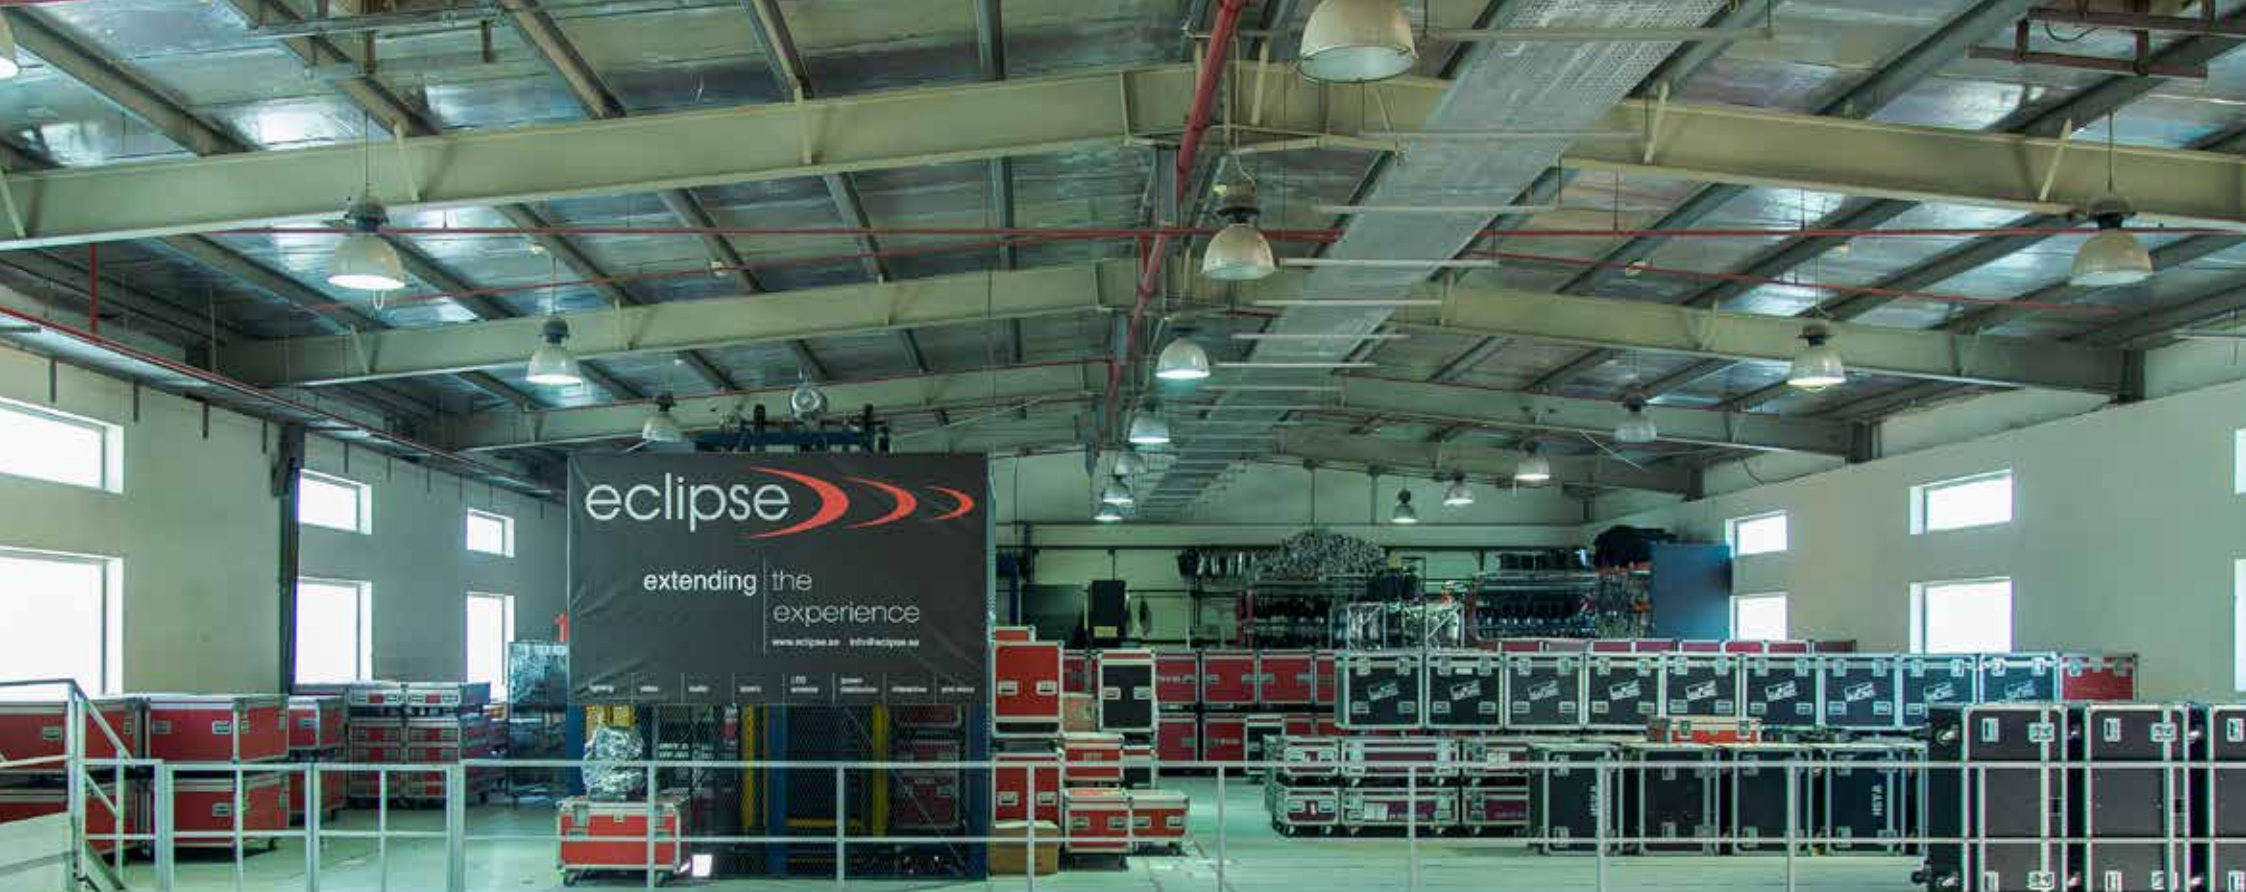

Our People

With every member being an expert in their field, the eclipse team is key to our success. The eclipse Group is committed to every individual's development.

We invest in our people through:

- Recruitment, safety, security, welfare and personal development.
- A commitment to the progression of all team members.
- Dedication to HR best practices and employee empowerment.
- An open and approachable management structure, which is both versatile and flexible.

Our Inventory

Our inventory boasts a remarkable range of high-quality and cutting-edge equipment. We own our extensive range of lighting, audio, video, rigging and power distribution equipment and only invest in market-leading brands. We also work closely with leading manufacturers to ensure that our technicians are trained to the highest possible standard prior to operating our equipment.

Our Technical Expertise

Investing in the best equipment is one thing, but we also invest in the best technical minds. With a wide and diverse skill set, our team members are technical experts in their chosen field, and we bear the skills in-house to complete repairs down to board and component level. eclipse supports the next generation of technical event professionals and is committed to the continued development of staff, who benefit from extensive internal and external training courses.

Health & Safety

With an unparalleled commitment to health & safety accredited to ISO 14001 & OHSAS 18001 standards, eclipse is leading the industry in improving HSE standards across the region. Our NEBOSH certified in-house HSE manager not only focuses on the team's safety but is also available as a resource for our customers. Risk assessment and method statements are completed as standard, and thorough HSE training and accreditation is provided for all onsite staff. We are also the first in the region to implement PAT testing of all equipment prior to each and every event to ensure the highest level of electrical safety and peace of mind for our clients.

The eclipse Group

Established in 2003 as eclipse Staging Services LLC, the eclipse Group of companies has grown to become a major player within the Middle East's event and integrated technology industries. Comprising three unique event and multi-disciplinary technology suppliers, each specialising in a different area of the market, the strength of the eclipse Group is in its diversity, and we are able to ensure that whatever a client's technology requirements, we are able to satisfy them. The following companies form the eclipse Group:

eclipse Staging Services LLC

As one of the leading technical production suppliers in the UAE, eclipse Staging Services provides a turnkey solution where possible and supplies an extensive range of lighting, audio, video, interactive, rigging and power distribution services, as well as technical project management.

eclipse Venue Services LLC

eclipse Venue Services supplies round-the-clock, high quality in-house technical services such as AV, project management and sales to hotels and venues. Providing the venue with a dedicated team of experts with diverse hospitality and AV experience, as well as an on-site inventory, eclipse Venue Services ensures the highest possible standard for both the venue and the end client.

eclipse Saudi Arabia

eclipse Saudi Arabia houses an extensive inventory of cutting-edge equipment in Riyadh, comprising lighting, rigging, video, audio, power and mains distribution. Investing in new equipment for its operations, eclipse Saudi Arabia brings its unique blend of customer service, high-quality technical services with a strong focus on health and safety compliance, to cultivate enduring relationships within the Saudi Arabian market.

Lighting

The lighting department is where it all began for eclipse Staging Services and we're still immensely proud of it today. Consisting of a group of highly skilled lighting professionals, the department is dedicated to raising the standards right across the Gulf, and is committed to investing in the right people to drive the company forward. We pride ourselves on regularly refreshing our lighting inventory and continually invest in the latest technology.

Our lighting inventory comprises industry-leading manufacturers such as Clay Paky, Vari-Lite, Martin, SGM, Chamsys and MA Lighting among others; we stock products that can't be found elsewhere in the region, giving us a competitive edge. We are also in a position to be able to react swiftly to specific requests from clients and are dedicated to fulfilling exact technical requirements in any way that we can.

Audio

eclipse audio has made significant investments in audio equipment including an extensive range of d&b speaker systems, which are uniquely customizable and scalable; DiGiCo consoles, Avid Profile consoles, Clear-Com FreeSpeak II wireless comms and HelixNet wired comms, Professional Wireless antennae, combiners and splitters, RF Venue Explorer radio frequency monitoring hardware

running Clear Waves software, and a variety of products from manufacturers such as L-Acoustics, Yamaha, Shure and Sennheiser as well as VDC UK. With continual development of our people with thorough training and specialisms, our focus is on remaining on the cutting edge of the industry's technology. eclipse's overall audio stock is comprehensive and varied, allowing us to provide for any type of show regardless of scale.

Video

The strong partnerships that the video department has formed with market-leading software/hardware developers such as Green Hippo, Analog Way and Christie Digital have strengthened the department by ensuring that we are constantly adapting to advancements in technology, allowing eclipse to remain at the forefront of delivering new and modern

solutions to the market. Along with our substantial inventory of resources including video projectors, LED screens, HD camera systems, seamless flat screen displays, control and switching equipment, and interactive displays, our passionate team of long-term staff and highly experienced technicians are committed to delivering technically complex live events of any size.

Westlife Concert

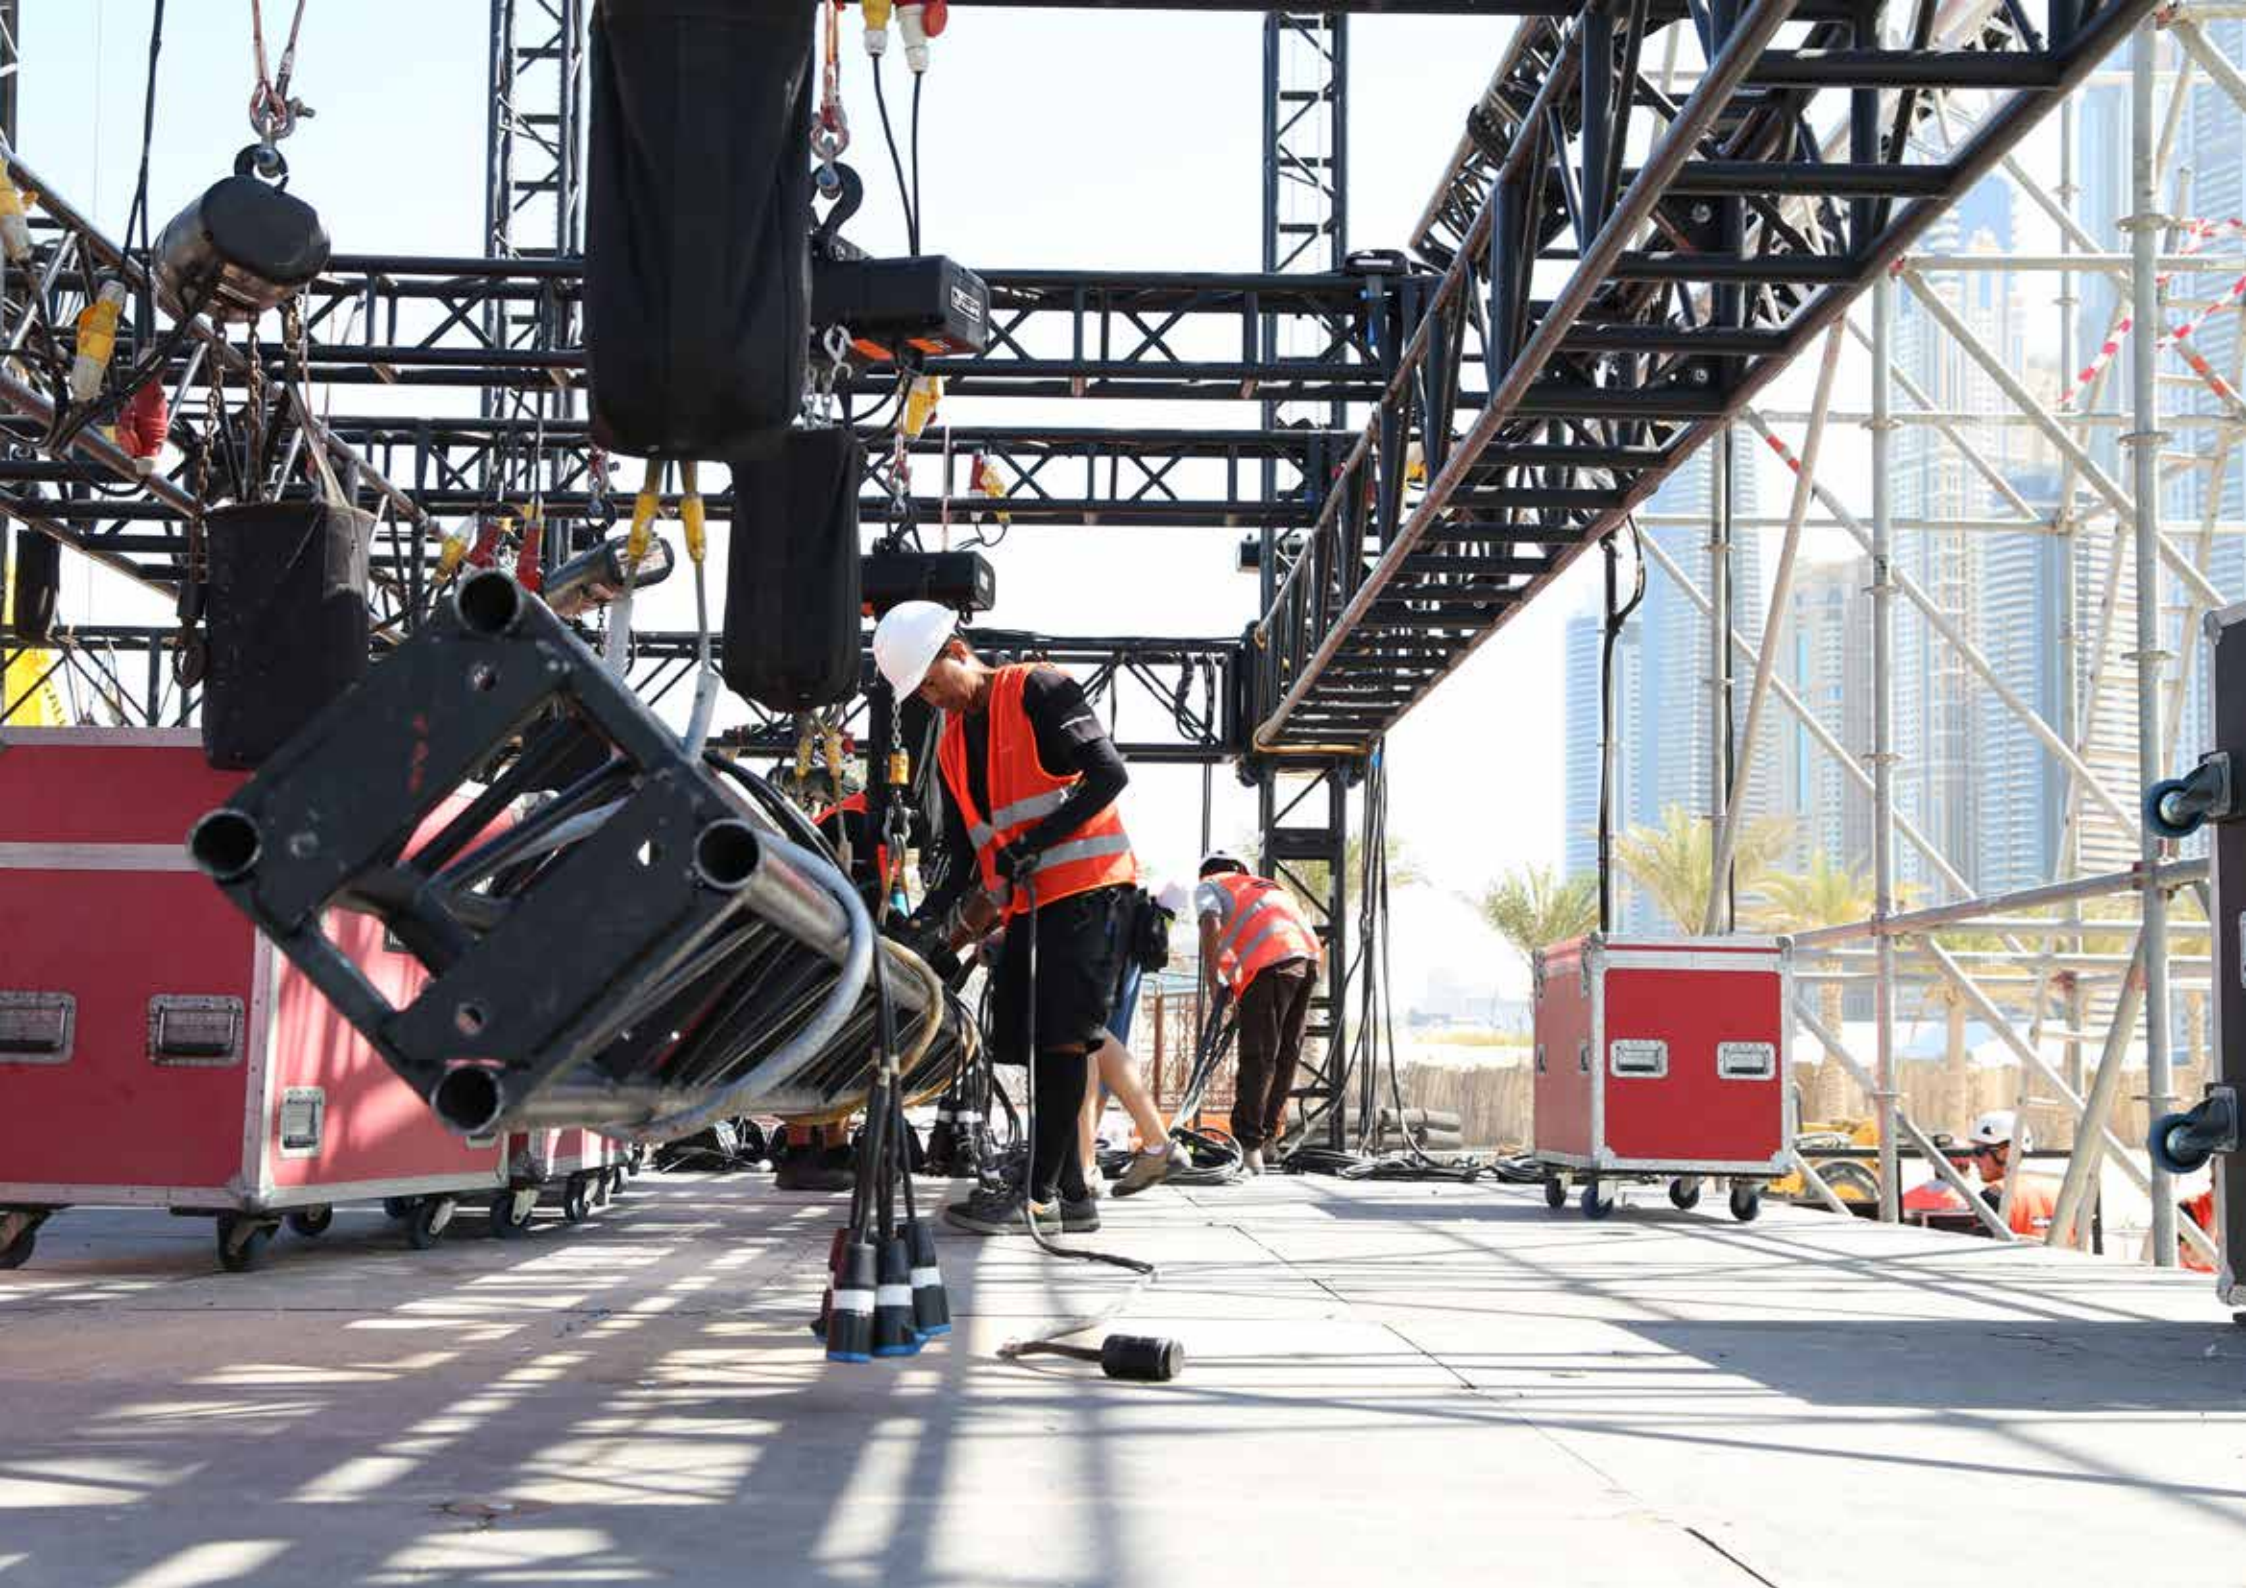

Power Distribution

Here at eclipse, we pride ourselves on being a leading company in the supply of temporary power solutions to the live events industry. We offer a turnkey solution all the way from generators down to 13a sockets, our expert team has a wealth of industry knowledge and our electricians all hold the BS7909 qualification. Our client list is ever-expanding and we are proud to have worked with a diverse range of both local and international companies, servicing all types of events including cultural festivals, fashion shows, live concerts, sporting events and

exhibition stands to mention but a few. Our commitment to driving up electrical safety in the region is unparalleled. We work to European standards and ensure that each and every piece of equipment is PAT tested prior to its use on an event. Having worked on some of the biggest projects in and around the GCC, we are uniquely qualified when it comes to delivering projects safely, on time and to the highest possible standard. To us, the size of the project is irrelevant, our clients receive the same professional service each and every time.

Rigging & Trussing

The eclipse rigging department has gone from strength to strength over the past few years. We work closely with our clients to produce detailed drawings, weight calculations and rigging plots during the planning stages and right through to the delivery of the event, ensuring transparency and safety for our clients at all times.

By frequently participating and conducting safety and best practice courses, and guaranteeing that we only ever use regularly tested and fully certified equipment, our seasoned team of IRATA Rope Access and PASMA certified rigging professionals are uniquely qualified to provide a first-rate service in the safest possible way.
